

Dr Simon Elliott leads the Materials Modelling for Devices group at Tyndall National Institute, Ireland. He studied chemistry in Trinity College Dublin (B. A. Mod., 1995) and theoretical chemistry in Karlsruhe Institute of Technology (Dr. rer. nat., 1999), and carried out postdoctoral research in Trinity College (1999-2001) before joining Tyndall in 2001. He has 75 publications, has been an invited speaker at meetings of the American Vacuum Society, Electrochemical Society, European Materials Research Society, China-ALD and American, Canadian and Finnish chemical societies, as well as communicating science to wider audiences on TV, radio, stage and online. He is a Fellow of the Royal Society of Chemistry and a member of the Project Management Institute. He was co-chair of the 16th International Conference on Atomic Layer Deposition (2016) and is chair of the European COST Action on ALD (2014-2018).
